

Communication

Date	7 July 2026
Project Name	Rising Waters - Real-time Flood Prediction and Alert System
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Slack & Zoom	Core Developers, Data Engineer	Align on daily tasks, discuss immediate blockers, and sync code adjustments.
2	Progress Update	Weekly	Trello & Email	Full Project Team, Project Guide	Review milestone completion status and share weekly task progress reports.
3	Issue / Bug Discussion	As Needed	GitHub Issues & Discord	Assigned Developers, QA Lead	Debug compilation errors, resolve merge conflicts, and clear functional defects.
4	Stakeholder Review	Bi-Weekly	Google Meet	Team Lead, Domain Experts	Demonstrate core features and receive feedback on model parameters.
5	Final Demo Rehearsal	Once	Zoom / Presentation Room	All Team Members	Execute a full run-through of the operational environment and scripts.
6	Post-Release Retrospective	Once	Miro & Slack	All Team Members	Document architectural learnings and evaluate optimization areas.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Asynchronous updates led to conflicting modifications in the Git repository branches.	Enforced strict pull request review workflows and established a dedicated Discord webhook for real-time repository notifications.
2	Delays in receiving direct model parameter feedback from project stakeholders.	Created a shared automated summary dashboard on Google Sheets that periodically sends quick-review links via email.
3	Misalignment on integration points between the backend ML engine and the web UI layers.	Hosted a focused structural review meeting on Zoom to finalize the JSON endpoint schemas before code integration.
